DETAILED ACTION

1. The applicants' remarks from the interview dated June 29, 2005 and from the Amendment filed July 21, 2005 have been found persuasive and have overcome the rejection set forth in the Office action sent April 1, 2005.

2. The following is an examiner's statement of reasons for allowance: While the cited reference of Lucero (5,038,022) teaches a system and method for providing credit for operating a gaming machine, and the cited reference of Capers et al. (4,669,596) teaches a vending machine accessory for permitting dual mode machine operation with either money or coded cards; and further, the cited reference of Perrier et al. (6,173,955) teaches a game of chance where both cash and cashless gaming are incorporated; the cited references of Lucero or Capers et al. or Perrier et al., alone or in combination, does not anticipate or make obvious the applicant's claimed limitations of a gaming machine retrofitted to accept cashless device (or a method thereto), comprising an interception and emulation unit mounted in communication with a cashless device transaction unit and the game processor; wherein the interception and emulation unit is configured to perform the following: intercept signals from the game processor, whereby the intercepted signals are not received as originally intended; emulate signals corresponding to gaming functions and transmit the signals to game components (as per claim 31, or method as per claim 37), in combination with other presented limitations.

Claims 31-39, therefore, are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
